

# Just to let you know...

We have been learning how to solve time problems using RUCSAC.

Pupils have been applying their knowledge of analogue and digital time to work out their answers.

If you haven't already done so and would like to support your child further, then have a look at the MyMaths website choosing either level 3 or 4, Shape, Measures and then Telling the Time activity.

We have had an amazing start to the first half of our 'Invaders' topic with a wonderful workshop with The Yvonne Arnaud Youth Theatre, who are experts on Roman history! The children experienced what life would have been like in Roman times, discovered what the romans did for us, and had the opportunity to participate in role play, using many roman 'artefacts'!

In English, we have been learning how to write poems. The children have used their experiences with The Yvonne Arnaud Youth Theatre, along with reference books, to write wonderfully descriptive, emotive poems about the Roman invasion.

Dear Parents,

A big thank you to all of you who have started the year off in a positive way; hearing your child read 3x a week and also helping them with their homework—we greatly appreciate it.

Also, just to let you know that as a school we will not be renewing our subscription to Mathletics, so there will no longer be a weekly activity for the children to do. However, you can sign up at home if you would like to.

Best wishes,

Julia, Sheila and Jess.
