

### Topic fun

This week we have been working hard in our LEAP groups to research, make, build and write things to go in our museum. Models group have been carefully measuring and designing a fairground style photo opportunity, fossils group have been exploring the different layers under the soil where fossils are found, sound and vision have been filming model dinosaurs and finalising story boards, habitats group have been researching flying dinosaurs. Advertising have been creating information signs and the café group have been down to town to do some hands on research into a real café. We have also been learning how to use a non fiction book to find information, and measuring length and capacity.

### I'm bored box

Sort your toys into size order. How do you decide which is the biggest? You could weigh as well as measure length and height. You could even make a table or a bar chart to show what you have found out.

Friday 14th June 2013

How many cm in one m?  
How many ml in one l?  
Can you find 3 different containers that hold 1l?

Sort these measurements into length and capacity. Then see if you can put each set into the right order, smallest to biggest.

1m, 10mm, 100ml, half a metre, one and a half litres, 3cm, 3l, 25cm, 300ml, 1.5m, 1.5l, 1.5cm, 5 and a half meters.

# Dinosaurs

### Things to remember...

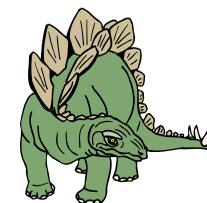

**Change of date for Pewley Dinosaur Museum!**  
This will now take place on **FRIDAY 5TH JULY**

**Water bottles—please make sure your child has one in school every day.**

**Well done to ALL the children who did a great job at swimming on Wednesday, taking part in a special water safety morning!**

### This week

These are the questions we have been thinking about this week. How many of them can you answer? Some of them are about what you think, and some have more specific answers.

*Can you explain what you learnt with your LEAP group?*

Read a section of your reading book to yourself. Can you explain what you have read in your own words?

### Nuts and bolts.

We have been looking at “ow” words that sound like “oh”.  
Crow snow show know  
How many more can you find?  
Can you write a silly sentence using as many as possible.  
“The slow crow in the snow.”

### Writing Corner

Lots of people have been making and playing their own dinosaur games in class this week. Can you write the instructions to explain how to play a game? It could be a game you like to play with your family, your friends or a new game you have made up.
