

JUST TO LET YOU KNOW

CURRICULUM NEWS

Maths

This week in maths the children have revisited fractions of shape and moved on to finding fractions of quantity. They have been able to order fractions on a number line and go on to identify larger and smaller fractions.

Literacy

Having created a 1940's character and their back story, the children went on to plan and write a letter, from an evacuee. The children were able to incorporate all that they had learnt about the life of an evacuee and what was happening on the Home Front at that time.

Spellings

(Many apologies, the wrong spellings went out last week).
Parallel, Perimeter, Annexing, Countryside,
Among, Lung, Fling, Wing

Reminders and Notices

Henley Fort

Please remember that the children will be visiting Henley Fort (3J Thursday 7th May, 3G Monday 11th May and 3C Wednesday 13th May). Children need to be dropped off at 9:30 in home clothes, with a packed lunch. We hope to get them back to school for the usual collection time.

Topic

The whole year group were actively involved in creating a human timeline representing the important dates during the second world war. The children worked together to find the correct order and then went on to identify the different countries and the parts they played in the war.

Thoughtful Time

We took Yr3 up to the Downs on Thursday morning to make the most of the beautiful weather and to carry on finding out about Paul's conversion on the road to Damascus. The children worked together answering their Thoughtful Questions.
